The Science of Health!
Every Man his own Physician.
HOLLOWAY'S PILLS
—AND—
Holloway's Ointment.

Disorders of the Stomach, Liver and Bowels.

The stomach is the great center which influences the health or disease of the system—abused or debilitated by excess—indigestion, offensive breath and physical prostration are the natural consequences. Allied to the brain, it is the source of headaches, mental depression, nervous complaints and unrefreshing sleep. The Liver becomes affected and generates bilious disorders, pains in the side, etc. The bowels sympathize by costiveness, diarrhœa and Dysentery. The principal action of these Pills is on the stomach and the liver, lungs, bowels and kidneys participate in their recuperative and regenerative operation.

Erysipelas and Salt Rheum

Are two of the most common and virulent disorders prevalent on this continent. To these the Ointment is especially antagonistic; its *modus operandi* is first to eradicate the venom and then complete the cure.

Bad Legs, Old Sores, and Ulcers.

Cases of many years' standing, that have pertinaciously refused to yield to any other remedy or treatment, have invariably succumbed to a few applications of this powerful unguent.

Eruptions of the Skin,

Arising from a bad state of the blood, or chronic diseases, are eradicated and a clear and transparent surface regained by the restorative action of this Ointment. It surpasses many of the cosmetics and other toilet appliances in its power to dispel rashes and other disfigurements of the face.

Female Complaints,

Whether in the young or old, married or single at the dawn of Womanhood, or the turn of life, these tonic medicines display so decided an influence that a marked improvement is soon perceptible in the health of the patient. Being a purely vegetable preparation. They are a safe and reliable remedy for all classes of Females in every condition of health and station of life.

Piles and Fistula.

Every form and feature of these prevalent and stuborn diseases is eradicated locally and entirely by the use of this emolient; warm fomentations should precede its application. Its healing qualities will be found to be thorough and invariable.

Both the Ointment and Pills should be used in the following cases: Bunions, burns, chapped hands, chilblains, fistula, gout, lumbago, mercurial eruptions, piles, rheumatism, ringworm, salt-rheum, scalds, skin diseases, swelled glands, sore legs, sore breasts, sore heads, sore throats, sores of all kinds, sprains, stiff joints, tetter, ulcers, venereal sores and wounds of all kinds.

CAUTION.—See that the words "Holloway, New York and London," appear as a watermark on every leaf of the book of directions which enfolds each box or pot. No others are genuine. A handsome reward given for information leading to the detection of counterfeiters of the medicines and venders of the deceptive articles, knowing them to be such. Sold at the manufactory, No. 80 Maiden Lane, and by druggists and medicine dealers throughout the world. A great saving by taking the large sizes. Full instructions with every box or pot. f6-1y

To Mary E. ******

BY ONE WHO IS STUCK.

Thou art my guardian angel Mary,
My hope and guiding star,
No matter where'er I chance to be,
At home or wandering far.
I feel so happy when thou'rt near,
When thou art by my side,
For thou art all the world to me—
My life, my joy, and pride.

I often meet thee in my dreams,
'Mid groves and shady bowers,
And wander through that lovely land
Of sunshine and of flowers.
Methinks no earthly cloud or care
Could linger round my heart—
Thy sweet, angelic, happy smile
Would bid them all depart.

Rebellion in Kansas.

Last evening while returning from a visit to the border counties, we met on the passenger train of the Missouri River, Fort Scott and Gulf Railroad, a messenger from the neutral lands, on his way, post haste, to Kansas City, to notify the officers of the road of the startling action of the "Land Leaguers," or settlers opposed to Mr. Joy. From him we learn that they had openly declared war against the Railroad Company, and all favoring them, and on Friday last, gave an earnest of their intentions by hanging two settlers on Coxie's creek, who had "proven up" and paid for their land in Mr. Joy's land office, thereby acknowledging his title to the lands. One of the murdered men was a Justice of the Peace, named Little, and the other a young man named Keller. It was also reported that they had shot another settler for the same cause, but the messenger gave it only as a rumor. Also, they had warned a number of settlers, not in sympathy with them, to leave, which command was being complied with, large numbers of them going to Fort Scott for protection, while others were leaving the State. From all the information we could gain, the Leaguers number from twenty-seven hundred to three thousand men, well organized and armed, and also determined in their hostility to Mr. Joy. It was reported that they purchased about twenty-five thousand rounds of cartridges and a quantity of powder in Kansas City, last week. The messenger informed us that the engineer's party was at work on the line south of Fort Scott, and it was feared they would come in collision with the settlers some time in the present week. Although it is difficult, where so many rumors are afloat, to get at the truth, we have every reason to believe that a very serious state of affairs is being inaugurated there, that in all probability will be attended with deplorable consequences. One of the worst features of the case will be in the fact that desparados and lawless men will take advantage of the disturbances to commit many wanton outrages and depredations. We have made full arrangements to receive, at an early day, an accurate statement of the real condition of affairs in that locality.—*Leavenworth Tribune, May 24th.*

COMPELLED TO DISGORGE—The Charlottesville (Va.) *Chronicle* relates the following adventure of a Freedman's Bureau Captain: A few days ago a Captain Harrison, Agent of the Freedman's Bureau at Scottsville, called to Charlottesville by business, was dining at one of the saloons in that town. A young lady one of the heroines of the war, whose name we omit, having scrutinized the Captain for a moment, arose from her seat deliberately and approached him with the tread of a woman who is not afraid—who knew her "honest rights and dared maintain them." Said the lady, with a stamp of her beautiful foot, which subdued the Yankee Captain at once, "Is this Captain Harrison, of the Yankee army?" The Captain stammered out it was—"Yes." "Well, sir, you have a watch and chain on your person that belong to me. You took them from me during the war by force, threats and violence. Now I want them back." With these bold remarks, accompanied with a dextrous movement of her hands, the gold watch and chain, valued at about two hundred dollars, were transferred to the possession of the rightful female owner. The vanquished Captain then bowed, retired from the table, and left the hotel and the City of Charlottesville.

WEBSTER FOUND WANTING—An Arkansas Judge had his law office close to a certain doctor's—in fact they were separated only by a plank partition with a double door in it. The Judge was at his table, busy with briefs and bills in chancery. The doctor was writing a letter, and, pausing for a moment, called out: "Judge, isn't e-q-u-i the way to spell equinomical?" "Yes, I think it is," said the Judge; but here's Webster's dictionary—I can tell you." He opens the book and turns over the leaves, repeating aloud "e-quinomical, e-quinomical." Finding the proper place, he runs his eye and finger up and down the column two or three times, until he is thoroughly satisfied the word is not there. Closing the book with a slam, the Judge lays his specs on the table, and, rising slowly, breaks forth; "Well, sir, I've always been a Daniel Webster man, and I voted for him for President; but any man that will write as big a dictionary as this and not put as common a word as e-quinomical in it, can't get my vote for anything hereafter."

ANOTHER SOREHEAD.—The editor of the Pittsburg *Post* claims to have been one of the very earliest of Grant's political friends, but he does not seem to have a very high idea of Grant's gratitude in his case. He says: "Early in 1867 this paper brought him out for the Presidency, in an article which was quoted up to the hour of his election, and he has never said thank you, or inquired after our health. We made a mistake in wasting brains in writing his praise, for we forgot that Grant was never known to read unless he was compelled to. We should have sent him a pup or a pony to have enjoyed his favor and confidence."

A GREAT PITY.—"Father Ignatus," the sensational but often sensible London preacher, says that since there are nine hundred millions of people in the world who don't believe in Christ at all, it is a great pity that believers in Him should quarrel among themselves.

OLD age commands respect—except when applied to butter and eggs.

Loss of Southern Statesmanship.

One of the greatest calamities to the country which arise from the continued practical exclusion of the Southern States from the Union, is the loss to it of the genius for statesmanship and conduct of affairs by which the South has always been eminently distinguished. We need not refer to the proofs and illustrations of this which were given in the Colonial times, and in the grand drama of Revolution. The South may claim with truth the Revolution and the Union itself as the product of Southern valor and wisdom. But for Washington the Revolution would have been a failure. Virginia led the way to the Union. All this is history, and cannot be denied. From that time to 1860, we have the testimony of the Radicals themselves, that the South directed the affairs of the Union. This is the great burthen of Radical complaint. "The slaveholding aristocracy," they assert, "ruled the Union for nearly eighty years, and we mean to rule it a hundred." Very well. And how did they rule it? Did ever nation make such a rapid and brilliant rise to greatness as under their counsels? History may be searched in vain for a parallel. The world may be traced over in vain for a country in which there was so much general happiness and content. Not a drop of blood had ever been shed in civil war. When sectionalism threatened collision the resources of Southern statesmanship were always equal to the emergency, and some felicitous compromise carried the ship of State in safety by the breakers. Federal taxation was a thing unknown. The national debt had been wiped out with scarcely an effort. Look at our commerce, finances, and all our great interests, before the Radical party came into power and since. England regarded us as her only commercial and manufacturing rival. Our territory was enlarged until the Rio Grande was its southern boundary, and the Pacific its western, an enlargement including Texas, California and New Mexico, only 76,000 square miles less than the whole original area of the Union; and this enlargement was the result of Southern statesmanship and valor. The annexation of Texas and the Mexican war were chiefly popular in the South. Was not the aversion to it in the North so great that Massachusetts even threatened secession if Texas was annexed? Would she be willing to secede now from that prominent result of the Mexican war, California? On the contrary, she is foremost in singing psalms and prayers over the fruits "of the robbery from Mexico," as she used to look upon it. Pacific railroad rings and California speculations in general, are the delight of her pious heart. She abbors bloody and violent men, who break into the premises of peaceful neighbors, like the Mexicans, but no one is more eager to lay hold of the stolen goods, and to ask a blessing upon them, than the Puritans. Here, then, through this California, which, through its railroad connections, is expected to add enormously to the wealth and population of the country, to become the great highway of the boundless trade of the East, and which, since the period of its acquisition, has poured a steady river of gold over the world, which was a trophy of Southern statesmanship, which would never have been ours if left to other counsels, and which may be said to gracefully crown the pyramid of national progress which the South had achieved for the Union until it had lost the power in any way to influence its counsels and advance its welfare.

If the world, as we have said, does not exhibit as rapid a rise to progress as America presented under Southern counsels, neither can it surpass the sudden and profound descent which has been made since Southern men have been driven off by the aggressive march of Radicalism, and kept out by its continued triumph. There is not a material or political interest of this country that has not deteriorated in Radical hands. The change in our condition is as great as from the genial temperature of summer to the freezing atmosphere of mid-winter. In nothing have we progressed under Radical rule save in the wholesale increase of debt, national and State, and in taxation unequalled in any part of the world, and in an amount of official corruption which has never been surpassed from the earliest history of mankind. Yet, in the face of these facts, Radicalism persists in ostracising and excluding from the national councils the statesmen of that section which has heretofore furnished us our wisest and safest guides and leaders in prosperity and adversity. The race which claims consanguinity with Washington, Jefferson, Madison, Calhoun, Clay, and other bright and numberless stars in our political firmament, are consigned to outer darkness, whilst the farthing tallow dips of carpet-baggers are put in their places. The very sight is portentous of woe, those lean and ill-formed kine, who have eaten up the fat-fleshed and well-favored; those empty and blasted ears of corn, which devoured the good and full ears. And a Senate which was once Roman in its dignity and power, and on the very spot where the Southern giants once stood, we now see, as representatives of the South, narrow-browed, stunted, evil-eyed adventurers and scalawags, who look like a combination of the Wandering Jew and the Impenitent Thief. And this at a juncture when the country needs more than ever, especially in the state of our foreign relations, its best statesmanship. The South does not ask to control this country; but, as our future fate is bound up with the rest, to have some voice in its control and in the general guidance. Is not this a reasonable request? Do not the interests of the country demand that it should be granted?—*Baltimore Statesman.*

WE hardly ever open a southern paper that does not record some horrid outrage of a negro upon a white woman. The crime was rare before the God and Morality party of the North took charge of the negroes. If somebody is not heaping up wrath against the day of wrath, then human nature has lost its just power of revenging wrongs.

A YOUNG rutualist, whose reputation for veracity was not very good, ventured to differ with an old doctor of divinity as to the efficacy of the use of the rod.—"Why," said he, "the only time my father ever whipped me, it was for telling the truth." "Well," retorted the doctor, "it cured you, didn't it?"

Chinese Treaty—They Come!

[From the Capital Reporter.]

The ocean steamer Great Republic arrived at San Francisco on Friday last, June 19th, and landed over thirteen hundred Chinamen. We also have information, entirely reliable, that other vessels soon to arrive at San Francisco from Asiatic ports, have on board over four thousand Chinamen, who have been encouraged to immigrate to this coast. Of the Chinamen who have recently arrived, and who are expected soon to arrive, fully three-fourths, we have been assured, are bound by contracts to labor for a number of years, ranging from three to ten. Of course the coolies thus encouraged to immigrate and brought to our shores, are to come in competition with the white laborers of the country. It is true, we presume, that additional laborers are required in the Pacific States and Territories to develop their vast mineral and agricultural resources, and to construct the public works required by the varied interests of the country, but in our opinion, no present pecuniary gain or hope of profit should induce us to encourage an immigration which, we are confident, can only result in present injury to white laborers, and future difficulties in the government of our country.

As the Radical press are generally the advocates of Chinese immigration, and that, too, regardless of the interests of white laborers, or the peace and welfare of the country, they are also zealous and untiring in their efforts to deceive the voters of this State as to the true intent and meaning of the Fifteenth Constitutional Amendment. In order to more effectually deceive the people, it has been asserted that the existing treaty between the United States and China, and which was ratified by the United States Senate in July last, *prohibited* the naturalization of Chinese. To prove that this is not true we append the treaty at length:

ARTICLE 1. The Emperor of China retains jurisdiction over all the territory of the empire, except so far as relinquished by special treaty. He agrees not to grant to any power the right within his dominions to attack citizens of the United States, and they agree not therein to attack others, but the United States may resist therein any attack made upon them.

ART. 2. Any privilege of trade or navigation in the Chinese empire not provided for by treaty shall be regulated by the Chinese Government.

ART. 3. The Emperor of China may appoint Consuls at the ports of the United States, who shall enjoy the same privileges as the Consuls of Great Britain and Russia.

ART. 4. Citizens of the United States in China, and Chinese subjects in the United States, shall have perfect liberty of conscience, and be exempt from all disability or persecution on account of religious faith or worship; their sepulchres for the dead shall be free from disturbance or profanation.

ART. 5. The right of emigration from one country to the other is recognized. Laws shall be passed by each punishing the transfer from either country to the other of any persons without their consent.

ART. 6. The inhabitants of each country shall enjoy in the other all the rights of travel and residence accorded to the most favored citizens or subjects of any other State. 'But nothing herein contained shall be held to confer naturalization upon the citizens of the United States in China, nor upon the subjects of China in the United States.'

ART. 7. Both parties shall endeavor to secure a common standard of weights, measures, and coins for all nations.

ART. 8. Chinese in the United States shall be admitted to all public educational institutions, without being subject to any religious or political test; and citizens of the United States may establish schools in China at any place where foreigners are by treaty permitted to reside.

ART. 9. The Emperor of China reserves to himself the right to judge of all matters of internal improvement in the Empire; but if he decides to introduce such, and shall apply to the United States for aid, the Government shall designate suitable engineers to be employed by the Chinese Government, which shall protect them in their persons and property, and pay them a suitable compensation.

By reference to article sixth it will be seen that the closing clause reads as follows:

"But nothing herein contained shall be held to confer naturalization upon the citizens of the United States in China, nor upon the subjects of China in the United States."

This clause refers only to the terms of the treaty itself, but does not *prohibit* such legislation on the part of either nation as may be necessary to confer citizenship. In fact naturalization is a matter for the consideration of the law-making power of our country, and is one in relation to which, we presume, our government would be very unwilling to consult other nations, or to concede that they possessed the right to interfere with the question in any form whatever. It will be recollected that in the Kosta case our government maintained that Austria had no right to claim him as a subject, or to compel him to serve as a soldier, he having prior to his arrest within her jurisdiction, declared *his intention* to become an American citizen. If necessary, we could point to many other cases to show that our government has ever guarded with great care the right of naturalization and the change of nationality which it affects, and has also at home and abroad, protested, when called upon, the civil and political rights of *adopted* citizens. We hope our readers, one and all, will read and carefully consider the treaty published above, so as to be fully prepared to refute, when made, the false statement that it prohibits the naturalization of Chinese.

MISS JONES, Postmistress at Winterset, Iowa, recently married Mr. Alfred Smith. Mrs. Smith is not known to the Department as Postmistress, Miss Jones has no longer a legal existence, and Smith is anxious to know whether he has married into the Post-office, or has married the Postoffice out of the family.

IT is said that a girl in Wales, still living, has not taken food since October 1857. Such a state will be excellent for all poor people of this country, by the time Grant is half through with his term.

GLARING INCONSISTENCY. — The first and third resolutions of the Democratic platform, adopted at Sacramento on Tuesday last, are as irreconcilable, one with the other, as the Holy Bible and Tom Paine's Age of Reason. The first reads as follows:

Resolved, That the Democracy of California now and always confide in the intelligence, patriotism and discriminating justice of the white people of the country to administer and control their government, without the aid of either negroes or Chinese.

Now listen to the third resolution:

Resolved, That the subjection of the white population of the Southern States to the rule of a mass of ignorant negroes, their disfranchisement, and the denial to them of those sacred rights guaranteed to every freeman, is an outrage and a wrong for which the history of free governments in modern times may be searched in vain for a parallel.

Most humbly do we ask if "the intelligence, the patriotism, and the discriminating justice" of the dear white majority were manifested by their votes at the last Presidential election? If all these qualities were displayed, we delicately suggest to the authors of the resolutions and those who adopted them, if they themselves are not wanting somewhat in "intelligence, patriotism and discriminating justice," since they and a majority of those "white people of the country" have acted in direct hostility to each other for the last eight years. The irreconcilability of the resolutions are too apparent to be overlooked by any one, and can only nauseate those whom it was intended to flatter. We do wish the Democracy could once more learn to act with candor and true courage. There are those who will condemn us for speaking out in this style, but we prefer to maintain our own consistency. The resolutions, taken as a whole, are good. But the *vox populi* is not always the *vox Dei*, and we should despise ourself if we were afraid to say so.

CALIFORNIA PACIFIC RAILROAD.—The Capital *Reporter* of July 2d, says: "Since the completion of the California Pacific Railroad to Woodland, the travel on that road is increasing rapidly. The fare from Vallejo is fixed at $3 50; from San Francisco to Woodland $4 25. Work on the road beyond Woodland is progressing finely. It is supposed that before the rainy season sets in, the cars will be running to Yuba City. The bridges for the route are being framed in Vallejo, and will be forwarded over the road and erected as the road progresses. We are glad to see such enterprise as is displayed by this company, and think that the citizens of Yolo, Sutter and Yuba should render them praise for their efforts in placing them in direct communication with Sacramento and San Francisco."

SENATORIAL CONVENTION. — Upon consultation with the leading Democrats in regard to the proper time of holding a convention to nominate a candidate for the State Senate, in the district composed of the counties of Solano and Yolo, they were unanimous in favor of *Saturday, July 24th*, and *Davisville* as the place, and they have authorized us to make this announcement to the Democracy of Yolo—therefore, gentlemen, take notice, if you please. A longer delay than this would not allow the nominee time to make a thorough canvass.

MORE MILITARY.—A correspondent of the New York *Tribune*, writing from Clarksville, Tennessee, mourns over the division of the Radical party, in that State, and says that if Senter and Stokes both run to the end, a large military force will be necessary to prevent the Democrats and conservatives from obtaining the ascendancy in the State government. The time is not far distant when a large military force will be necessary to keep Radicalism in power in any State outside of New England.

THE NEW CAPITOL.—On Tuesday last we were conducted through the new State House in Sacramento, and found that it will, in truth, be all that it has been represented, not inferior in dimensions and finish to any similar building in the United States. When completed the entire cost will not be less than two millions of dollars.

OUR DARLING PRESIDENT. — Late in the evening, after the negro riot had been quelled at Washington, on the day of the municipal election, Grant rode out to the scene of the riot. The negroes cheered him, and he gratefully bowed his acknowledgment!

THE WHEAT MARKET has underwent no changes since our last—$1 60 being the ruling price. Barley $1@$1 20.

Democratic State Convention.

The delegates to the Democratic State Convention assembled in the Assembly Chamber at Sacramento, on Tuesday 19th instant. J. P. Hoge, Chairman of the State Central Committee, called the Convention to order in a short speech, replete with good sense, in the course of which he said: "In these latter days, I am of the opinion there exists no sound, true, faithful, constitutional lawyer outside of the Democratic organization," and that "no man can be a sound constitutional lawyer who was not raised, educated, and brought up in the Democratic faith, or will determine and administer the laws according to the constitutional history of the country, as our fathers did."

After the Convention was properly organized, the committee on platform and resolutions handed in their report. A discussion arose as to whether the resolutions should precede or follow the nominations. It was finally determined that they should first be read. After the reading, W. W. Pendegast, in a most eloquent and energetic speech nominated J. B. Crocket, of Alameda, as one of the Justices of the Supreme Court, to fill the vacancy occasioned by the resignation of Judge Shafter. The nomination was ratified by acclamation, and Crocket returned his thanks in happy style.

Judge James H. Hardy then, in the highest possible terms of eulogy nominated Sam Bell McKee, stating that he had stood firm as a Democrat during the time that tried men's souls, and simply by his power as a good man was elected Judge in a district that polled 2,500 Democratic majority. MaClay endorsed the nomination, saying Judge Sam Bell McKee was "one of the best men living upon the face of the earth, and a man of the most distinguished ability." All who know Judge McKee will echo this sentiment expressed of him. MaClay then remarked that Judge McKee was not a candidate for judicial honors, and withdrew his name.

Mr. Dangerfield then nominated William T. Wallace, of San Francisco, and with acclamations that fairly lifted the roof of the building, the nomination was sanctioned. After the brief remarks of Wallace in returning thanks, and the presentation of boquets to the nominees, from the ladies of the Third Ward, the Convention adjourned. At night the nominees were serenaded at Callighan's, and speeches were made. Jim Coffroth, who is more warmly admired by his personal friends than any man in the State, also was serenaded.

The platform next week.

OUR JUDICIAL TICKET.—We refer to our judicial ticket with satisfaction and with pride. For true dignity, personal worth and manly firmness, as well as legal ability, they are not surpassed by any two men in the State. Nothing can be of more importance to the people of a State than to have a firm and incorruptible judiciary. The remarks of W. W. Pendegast, who placed Crocket in nomination, in this connection, are just and appropriate. He said: "It is almost impossible for us to conceive how much just now depends upon the Judicial department of this Government, both State and Federal. If to a weak and incompetent President, a corrupt Congress, should be added a weak, timid and vaccillating judiciary, then would our degadation as a people be complete." Such a degradation confronts us if the Democracy are to be beaten. But no such calamity awaits us. As Hoge, President of the Convention said, it remained only for the delegates to register their nominations, and the people would register their election.

GOOD LOOKS.—Every one who attended the Democratic Convention at Sacramento, must have been struck with the manly appearance of the delegates. It is a law of physiology that the emotions of the soul imprint themselves on the countenance. For a man to be a Democrat he must have a large share of philanthropy, and love and confidence in the race he belongs to, and it is a well known fact that the countenance indicates the presence of these qualities. On the contrary, every Republican must distrust his own race—he must have more or less fanaticism in his composition, and be of an inexorable disposition, all of which are easily traceable in the lineaments of the face. There is a marked physical distinction between Democrats and Republicans. We never saw a better looking body of men congregated together than were the Democrats assembled in Convention at Sacramento — except, perhaps, Dan Gelwicks.

MORE HOTELS WANTED—Strange as it may sound there are not hotels enough in Sacramento for the accommodation of those who visit the city. The numbers who were in attendance on the Democratic State Convention found difficulty in obtaining beds. There are several first-class hotels in Sacramento, and they are well conducted, but two or more would be liberally patronized. During the sessions of the Legislature, and on occasions when the people from the several counties are called to the capital, the want in this respect is great. Here is a good investment for capital.

ONE OF GOD'S PEOPLE.—We see it announced in some of the papers that the Democracy of Amador county will insist upon James T. Farley accepting of the nomination for State Senator. Mr. Farley is one of the biggest-souled men in the world. Since he came to California, unaided by previous education for the bar, he has made himself a first-class lawyer. In 1854 he was Speaker of the Assembly, and was marked for his promptness, decision and correctness. As a sensible, genial man, and an effective speaker, he has no superior. We hope Mr. Farley will accept.

NEGRO TRIUMPH IN WASHINGTON.—We regret to see such a gentleman as Captain De Haven, of the *Northern Enterprise*, giving currency to the false statement of the Sacramento *Union* that the negro triumph in Washington was "in favor of reform, honesty in administration, and rapid improvement," without as much as one word about their disgraceful conduct at the election, and of their being guilty of arson, riot, bloodshed and murder, without any provocation whatever from the white population. A correspondent of one of the Washington papers says that the negroes congregated the night before the election at every precinct, so that they could hold the polls against the whites. During the night they set fire to the store of one of the candidates on the White Man's Citizens' ticket, and burned it, with all its contents, to the ground. The election, the next day, opened with rioting on the part of the negroes; they attempted to kill a negro porter in a store who intended to vote the Citizens' ticket. For this purpose they assaulted the store, destroying its contents, and chased him from one private residence to another, driving the white families out into the streets. The police interfered to preserve order, and they were assaulted with sticks, stones, and every conceivable missile, the negroes shouting, "Kill the d—d white s—s of b—s!" The police fired on them, but after the first panic they recommenced the assault with redoubled violence, and beat many of the police so as to endanger their lives. The Mayor made his appearance on the scene of action, and they raised the cry, "Here's our Mayor—boy's let's kill every d—d Democrat!" The polls were securely held by the negroes, and hundreds of white voters refused to go near them. The correspondent continues his description of the riot which lasted throughout the day, and concludes with the following:

"Let no Northern man, be he Democrat or Mongrel, for his life or his property, set his foot in Washington with a dollar; for under the municipal rule now in force, neither is safe. Before this riot, capitalists have shunned the place. Let them do so forevermore. The town is doomed and d—d."

Can any white man look at this picture of the condition of the Capital of this great country and afterwards vote to continue the party in power that produced it. "Washington is doomed and damned," as every other place will be, and ought to be, which tolerates negro equality. Of course the negro ticket is elected, and the municipal government of Washington is entirely in the hands of negroes.

UNFORGIVING. — Goodwin, of the Solano *Sentinel*, refuses to be comforted — won't have "peace" — and calls us a "blackguard." Having great love for the lessons taught by the meek and lowly Jesus, we have no retaliation to make. But, as Alex. Montgomery is a terrible good judge of human nature, we give his opinion of the irrascible editor, endorsing fully the "novice" part of it:

EARS UP.—Goodwin, of the Solano *Sentinel*, a clever enough gentleman, no doubt, personally, persists in showing his ears, and says that we wish to obtain "notoriety" by getting him into a controversy. What stuff! This simple assertion shows how ignorant the Solano editor is of the Democratic men of California, and their antecedents, and proves conclusively that he ought to be put under the guardianship of a Democratic Committee of Solano county, one that can tell him "who is who" and "what is what." Democratic editors who had the moral courage—and it required plenty of it—to edit Democratic papers and advocate Democratic principles, during the late war contest, passing through a perfect torrent of persecution, undergoing a crushing species of martyrdom, facing, defiantly, a pressure made to *starve* or *scare* them into submission, need hardly now, in this day of comparative summer sunshine and quiet, seek avenue for "notoriety," and least of all such avenue as the novice editor of the *Sentinel* afforded them. In all candor, we may say to our neighbor of Solano, that we desire no controversy, no contest, no quarrel with any one, no matter what his former political position, who is now honestly ready to marshal with the Democratic army of California, to the end that we may obtain a Democratic victory in September, and another in October, and if he is in the same way of feeling, let him counsel with the real Democrats of his county, and right his errors of the past.

BUTTE COUNTY NOMINATIONS. — The Democracy of Butte county met in convention at Oroville, on the 24th ultimo, and made their nominations. G. W. Colby was chosen as the candidate for the State Senate, and J. C. Martin and M. Biggs for the Assembly. For County Clerk, M. Darrah; Sheriff, T. F. Miller; District Attorney, A. Maurice, Jr.; Assessor, R. H. O'Farrell; Treasurer, John Lytle; Recorder, St. John Jackson; Superintendent Public Schools, Jerry Thomas The men nominated are all good and faithful, but the selection of so many of them from Oroville, which polls so small a Democratic vote, and the rejection of all the candidates from Cherokee Flat, which polls the highest Democratic vote, was ill-advised, and will endanger the success of the ticket. Five of the candidates were selected from Oroville, not one from Cherokee, the banner precinct, and but one from Chico, which pays vastly more taxes than any other township. There is not a town in the State whose people are more refined and cultivated than those of Cherokee, yet both of her candidates were refused a nomination. D. A. Jones, Esq. the defeated candidate for Recorder, would fill any position with honor. Such a domineering spirit as this manifests will result in the creation of a new county, unless the people of Chico and Cherokee are the most spiritless of any on earth.

DISTRICT JUDGE. — The Judicial District Convention, at Sacramento on Tuesday last, nominated Lewis Ramage as a candidate for Judge of the Sixth Judicial District, composed of the counties of Sacramento and Yolo. Mr. Ramage is a good lawyer and a good man—and has a hard race to run.

DEATH OF JUDGE LEWIS.—Butte county has sustained an irreparable loss in the death of Judge Joseph E. N. Lewis, which sad event took place at the residence of Peter Freer, of Oroville, on Saturday, 25th instant, in whose family he had been a constant boarder for the last fifteen years. On the day previous he had been nominated by the Democracy as a candidate for Judge of the Second Judicial District. When his nomination was announced to him, he remarked to Mr. Pulliam, of Cherokee Flat, that it would be proper to appoint a committee to make a nomination to supply the vacancy in case of his death. Mr. Pulliam jocularly asked him if he was "going to die." Judge Lewis replied there was "no telling what might happen." The next evening this sad premonition was realized, while sitting in a rocking chair conversing with Mrs. Freer. Judge Lewis emigrated to California early in '49, and resided in Butte county up to the period of his death. When the last breath heaved his bosom, a noble soul sped to heaven. He was constitutionally and by education a gentleman. But the good, as well as the worthless die. The latter are not regretted and are soon forgotten, but the former live in the memory of the good and virtuous—and thus does Judge Lewis still survive.

ELEVATOR.—The grain elevator at Vallejo works successfully, raising over 100 tons per hour. This is an important invention.

NEW MAP —OF— California and Nevada!

Just issued, one of the largest and most comprehensive works of the kind yet published. Scale, twelve miles to the inch. Size of Map, five feet by four feet. The topography of country delineated more minutely than ever before attained. Data obtained from United States Hydrographic and Land Surveys, State Geological Surveys, and every other source attainable.

Upon this Map all Geoligical divisions, both natural and artificial, have been fully noted. The various base lines and meridians established by the United States surveys, the several land districts and county lines, with boundaries of the latter corrected up to date, together with township lines, showing those subdivided into sections are all accurately laid down.

The late enlargements of Nevada made by Congress, adding to that State, portions of Utah and Arizona, have been fully indicated. All important trails and wagon-roads, the routes for railroads, built and projected, many of the leading mining districts, the hights of the principal mountain and mountains passes, the sites of all Indian reservations, military posts and Spanish Missions; many of the more noted mineral and thermal springs, alkili flats, salt beds, tule lands, and other features peculiar to the topography of the country described, have all found a place on this Map, being laid down with the utmost practicable precision.

Pacific Protective Association of California.

Incorporated.....Oct. 1868.

OBJECT.

The object of this Association is to secure a cash payment, within sixty days after the death of a subscriber, to his or her heirs or assigns, of as many dollars as there are individuals of the class to which said deceased subscriber belonged.

MEMBERSHIP.

The subscription fees are TEN DOLLARS at joining, and ONE DOLLAR on the death of each subscriber. The One Dollar from each subscriber is paid to the heirs or assigns of the deceased.

THE FUNDS.

The By-Laws of the Association require that a portion of the money received as subscription fees shall be a sinking fund to meet assessments falling due by the delinquencies of subscribers. The balance of the money received to be used for the expenses incurred by the Association.

MEMBERS.

A subscriber failing to pay his or her assessment of one dollar within Thirty Days from receipt of notice forfeits his or her Certificate, and all claims upon the Association, unless good cause is shown for further delay. A subscriber can forward money in advance, which amount will be credited on future assessments. The subscribers are divided into classes including males and females. Each class is limited to 5000 subscribers. As classes are filled, new ones will be formed. No person is so poor that he cannot pay Ten Dollars at joining and One Dollar occasionally, thus securing $5000 to his or her heirs or assigns.

ADVANTAGES.

The advantages of this Association are, that no money panic can effect it. Its benefits are easily attainable by all, and every subscriber added to the Association enhances the interest and protection of all; the amount paid being so small, and only at long intervals, that any person can secure for his family a competency upon his death.

CLASSES.

In class A, all persons between the ages of 15 and 40 year. In class B, all persons between the ages of 40 and 60 years. Any one that has not stated his or her age correctly, will forfeit all money paid and his or her certificate.

One class cannot be assessed if one of another class dies. Classes have no connection with each other.

HOW TO BECOME A MEMBER.

A person desirous of becoming a subscriber must fill out an application and forward with it Ten Dollars by check, draft, or by Express, in gold or silver coin. Persons can pay agents, when regularly appointed and authorized to receive money. Each subscriber should interest himself in obtaining new members; by so doing all are benefitted.

SACRAMENTO CITY EXTENTION HOMESTEAD ASSOCIATION.

SHARES.....$250 EACH,
Payable in seventeen Monthly Installment.

Lots Represented by Shares 50 by 160 Feet.

Lands Immediately Adjoining the City Limits.

Title Perfect!

Payments to begin July, 1869, and to close November, 1870.

This Homestead addition to the City of Sacramento offers unrivaled inducements to all who desire to secure homes, as well as to those seeking to make investments in real estate. Shareholders who pay up in full may take possession of their lots under restrictions consistant with the interests of all Shareholders and an equitable distribution of the property. These restrictions are briefly: 1. Payment in full within six months from July 1st, 1869. 2. Not more than six lots in any one block shall be assigned; only two of which shall be corner lots, and only one corner and two inside lots on the same side of a block. This feature will secure the immediate settlement and rapid improvement of the lands, and a consequent enhancement of its value. The line of the Sacramento Valley and Western Pacific Railroads run through the plat, and an agreement and bond has been executed by the former Company to run trains on schedules of time equal to the accommodations afforded by street railroads. Thus by reason of being conveniently accessible, these lands are brought within the range (in value) of those more centrally located, and will find early occupancy. In every feature of this scheme the Homestead principle—which has been so prolific of good to citizens of moderate means, promoting the growth of our State and its cities and distributing the ownership of Realty among the many—has been carefully guarded. It may safely challenge comparison or competition.

Articles of Association, containing maps of plat, and showing its relation to the city, will be furnished upon application. Shares may be secured by forwarding the first installment of Ten Dollars to the Secretary, who will also furnish any desired information.

Summons.

STATE OF CALIFORNIA, county of Yolo. In the District Court of the Sixth Judicial District in and for the county of Yolo, The People of the State of California, vs. CHARLES F. REDDING.

Action brought in the District Court of the Sixth Judicial District of the State of California, and the complaint filed in the county of Yolo, in the office of the Clerk of said Court.

The People of the State of California send greeting to Charles F. Redding: You are hereby required to appear in an action brought against you by the above named plaintiffs, in the District Court of the Sixth Judicial Dislrict of the State of California, in and for the county of Yolo, and to answer the complaint filed therein (a copy of which accompanies this summons) within ten days (exclusive of the day of service) after the service on you of this summons, if served within this county; if served out of this county, but within this Judicial District, within twenty days; or if served out of said District, then within forty days, or judgment by default will be taken against you.

The said action is brought to obtain a decree of this Court for the foreclosure of the right, title and interest of defendant in and to certain Swamp and Overflowed lands, described in the complaint, and purchased by the said Charles F. Redding, on the 6th day of June, A. D. 1861, and described as follows, to-wit: In location No. 122, surveyed lands, Marysville and Sacramento Land District, of lands entered at Sacramento as State School lands, Mount Diablo Meridian, containing one hundred and sixty acres; that the certificate of purchase and other evidence of title held by defendant may be declared null and void, and for the costs of suit herein expended, and also that the defendant and all persons claiming by, through or under him may be barred and foreclosed of all right, title, claim, lien, equity of redemption, and interest in and to said premises, and for other further relief. And if you fail to appear and answer said complaint as above required, the plaintiffs will take default against you and apply to the Court for the relief demanded in the complaint.

Given under my hand and the seal of the District Court of the Sixth Judicial District, this 29th day of May, in the year of our Lord one thousand eight hundred and sixty-nine. {L. S.}

TOWN AND COUNTY MATTERS.

MAKE A NOTE OF IT.—Now that we have the railroad running through the heart of our town, to avail ourselves of its many advantages very much depends upon the liberality of the holders of real estate along the margin of the road. There are many kinds of business which can be built up in Woodland, adding greatly to its wealth and prosperity, and we hear of many persons wishing at once to inaugurate such business but cannot do so for the want of ground on which to operate. For instance, there are persons wishing to engage in the grain and lumber business, but can neither lease or buy the ground required for this purpose. We are sorry to learn this much. The Railroad Company, by their enterprise, have relieved the greatest want this town ever knew, and our business men should now furnish every facility required to fully realize the benefits the grand enterprise promises. An illiberal and unenterprising spirit manifested by our citizens at this time would surely drive not only the grain and lumber, but every other kind of business from our town. There is so much business to be done, and if the owners of real estate wish it done here in our town, they have only to sell or lease the ground required for the purpose; failing in which, they may rest assured a rival town not far distant will soon spring into existence. We trust these remarks will be duly considered by holders of real estate along the line of the road contiguous to our town.

THE RAILROAD has penetrated and passed through our town. This interesting event took place on Tuesday last, and all hearts are delighted, as it is a sure precursor to the great prosperity of the place, affording cheap freights, rapid facilities for travel, bringing trade to this place from all the country around in a circuit of fifteen miles, as well as strangers in our midst to enliven our streets and spend their money. There is not a single branch of business with us but what will have activity imparted to it by the completion thus far, of this enterprise. With such large bodies of farming land—acknowledged to be the best in the State—and so healthful and beautiful a country as is found within the boundaries of Yolo county, together with the rapid and cheap transit which this road furnishes, the progress of Woodland and the country around it, in the acquisition of wealth and population, must be great With all these advantages the multiplied thousands who come to California from the Atlantic States by rail, in quest of homes, cannot but give us the preference.

A DELIGHTFUL BEVERAGE.—Our old Amador county friend, Eb. M. Briggs, now of Sacramento, has placed us under obligations by a present of several bottles of Hinckley's Great Summer Beverage, otherwise called "Hinckley's Pop." It is manufactured corner of H and Eleventh streets, Sacramento, and as a cooling, invigorating drink during summer, is not excelled. The article has been analyzed by chemists, and pronounced entirely free from all deleterious ingredients. It is extensively used in families and recommended to patients by physicians. It can be found at the Woodland Bakery, Jim Gover's saloon and several other places in town. The cheapness of the article places it within the reach of all.

SCHOOL CENSUS.—The following is an abstract of the report of the School Census Marshal of Woodland District for the present school year: Number of white children between the ages of five and fifteen, 350—boys 163, girls 177. Negro children, one. Total number of children drawing school money, 351. Last year the number was 273, showing an increase of 81. Of those 288 were reported as attending public school; 39 private and 24 as not attending any school. Last year the maximum amount of money drawn by each child was $8 50; allowing an increase of $1 50 per child, we will have for this district $3,510 public money, which, if judiciously expended, ought to keep a school open for the greater part of the year.

ADVANTAGES TO BE REALIZED.—The completion of the railroad to this place now opens up a large grain business—a large live stock business—a large wood and lumber business—a large fruit business—in short, furnishes a ready market for everything produced in the county—all of which this town can secure to itself if our citizens only will it, and act with any degree of liberality, The cars leave here in the morning, and whatever is shipped from this point can be sold in San Francisco the evening of the same day. People of Woodland and Yolo county, an era of prosperity has dawned upon you! The Railroad Company has done much for you; do now a little for yourselves.

WHEAT DESTROYED BY FIRE.—On Sunday morning last, a spark from the steam thresher employed on the farm of R. A. Daniel, near Buckeye, in this county, ignited the dry blades of the wheat, and a north-wind blowing at the time, the fire spread with great rapidity. The men in the field, and the neighbors near at hand, turned out and its progress was soon stopped. About the same time, from the same cause, a fire occurred in the field of R. Smith, about three miles distant, which was not so easily subdued, burning a considerable quantity of wheat in sacks. A third fire, on Thursday last, occurred in the foot hills, occasioned by a boy while herding stock. Too much care cannot be observed regarding fire in harvest time.

WOODLAND INVADED.—On Sunday afternoon about three o'clock, four thousand five hundred ladies, children and gentleman, there or thereabouts, made an irruption into our town. They came from our sister village of Davisville, on the cars to within one mile of this place, and the rest of the distance in vehicles furnished free gratis by our hotel keepers and livery stable men. It was a god-send to the numerous saloons. For two hours they dispensed iced drinks without intermission. We may come down in our estimate a few men and women, but a very few. At five o'clock the party returned on the cars.

A PRESENT OF FRUIT.—We acknowledge the receipt, on Wednesday last, from the celebrated Washington orchard, on Cache Creek, of a box of the finest fruit we have seen this season, consisting of apples, mammoth apricots and figs. This is a present which is gratefully appreciated by all connected with the office. This orchard contains forty-five acres of the choicest fruit trees and vines in the State. Thos. H. Washington, the gentlemanly donor, has had control of this orchard for the last five years, and must be deriving large profits from it. He is a cousin of Col. B. F. Washington, and both relatives of the Great Father of his Country.

SCHOOL ELECTION.—At the election held at the school-house in this place on Saturday last, E. Bynum and F. C. Ruggles were chosen Trustees—Bynum for three years and Ruggles for one year, (to fill the unexpired term of D. B. Goode.) All party feeling was ignored, and the gentlemen selected are every way fitted for the discharge of their duties as Trustees.

PROFESSIONAL.—Dr. F. M. Clayton, of Sacramento, can be consulted on Tuesday and Wednesday of each week, at the Planters' House, in this place. Particular attention given to chronic diseases.

GRASSHOPPERS.—These destructive insects are destroying everything green along the foothills in this county, particularly the alfalfa.

HOT, HOTTER, HOTTEST.—Sunday, Monday and Tuesday the thermometer ranged higher than it has this season. On Saturday evening the wind hustled round to the north, and by Sunday morning it had increased to quite a gale. Blowing from the north it brought not a chilly sensation, but was almost blistering in its effects, as if it swept over great fires. We learn from the farmers that but little damage to wheat has been experienced, as the grain is somewhat shrunken, and not easily shelled out. On Monday the wind resumed its former direction in the genial South. We have had more breezes from this point, since warm weather commenced than any previous year. The belief is now general that harvesting will be completed before we are visited by another of those northern siroccos, which are dreaded by beasts, as well as men, in California, nearly as much as the Arabs of the desert stand in awe of them. One hundred and fifteen was the highest figure the thermometer reached during the blow.

NEW MAP.—Gustavus Cox has exhibited to us a new map of California and Nevada, which for convenience and utility excels anything of the kind we have yet seen. All geographical divisions, both natural and artificial, are noted upon this map, as well as the several land districts and county lines, with boundaries of the latter corrected up to date, together with township lines, showing those subdivided into sections, all accurately laid down. Another marked feature of this map is that all important trails and wagon roads built and projected, are distinctly traced. All mountain passes, Indian Reservations, military posts, mineral springs, alkali flats, salt beds, etc., are distinctly pointed out. This map is neatly executed, and its correctness has been vouched for by many State and U. S. officers. Mr. Cox can be seen at Hunter's Hotel, Main street. Every man should have one. It is almost an indispensable article to every individual. See advertisement in another column.

VISITED BY A BIRD.—During the hottest hour on Monday last, a quail from the woods flew and perched upon the window within three feet of where we stood at work. It seemed much distressed from the heat, and exhibited no trepidation at its proximity to us. It maintained its perch for some twenty-minutes, looking intently as we picked up type. Our feelings were all aglow in kindness to the feathered stranger. We took a cup of water and placed it on the window, within a few inches of its beak, but as we withdrew our hand, like hope from the bosom of many an unfortunate, it flew away from our kindly intentions. Here is an omen. Who will interpret it?

MUSTANGS CHASED BY THE CARS.—On Tuesday last the three o'clock train of cars from Sacramento came upon a drove of mustangs just at the commencement of the tules. The frightened animals galloped along the track not liking to jump over the embankment and take to the mud and tules on either side. For nearly two miles, the race was an exciting one between the cars and horses. But at length they came to where the piles were driven, and the horses took the plunge into the water fifteen feet below, disappearing for a time and had to swim to the nearest *terra firma* to keep from drowning.

PARENTS, ATTENTION.—By all means keep your children away from the railroad. Accidents are very liable to occur, notwithstanding the strictest attention of those employed on the road. Never let them approach the road when the cars are in town, particularly after night. They also scatter the spikes along the track, which, if unobserved, would throw the cars from the track, and probably cause the loss of life. This notice is given at the request of the officers of the road. If you love your children, take heed.

TO SCHOOL MARSHALS AND TRUSTEES.—Superintendent Darby informs us that the reports of these officers are now due, and but few returns have been made. Those in whose hands these matters are intrusted will recognize the necessity of punctuality.

PREACHING.—H. C. Benson, D.D., editor of the *California Christian Advocate*, will preach at the M. E. Church, in this place, on Sunday, July 10th, on the subject of Foreign Missions.

CATHOLIC CHURCH.—Parties who have subscribed towards the erection of a Catholic Church in this place, will observe a notice directed to them in to-day's DEMOCRAT.

NEW TIME TABLE.—Attention is called to the advertisement of the Cal. P. R. R. Co.

Bear testimony to the wonderful curative effects of

Dr. Joseph Walker's CALIFORNIA VINEGAR BITTERS!

Manufactured from the native Herbs and Roots of Calfornia.

The Great Blood Purifier!

For Inflammatiory and chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious Remittent and Intermittent Fevers, diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such diseases are caused by Vitiated Blood, which is generally produced by derangement of the digestive organs.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptiyns, or sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood healthy, and all will be well.

"The life of all Flesh is the Blood thereof." Purify the Blood and the health of the whole system will follow. It is a Gentle Purgative as well as a Tonic.

These Bitters are not a gilded Pill, to delight the eye or please the fancy, but a medical preparation, composed of the best vegetable ingredients known.

SPECIAL NOTICES.

THE TRUE MEDICAL DOCTRINE.—Nature, when struggling with disease, indicates unmistakeably the kind of assistance she requires. In case of nervous weakness and general debility, the feeble pulse, the lack-lustre eye, the attenuated frame, the flaccid muscles, the menancholly visage, inform us as plainly as if each organ had a tongue, that *a medicated stimulant is needed.* It does not require the aid of a medical education to understand this dumb appeal for new vigor, from an exhausted system. Every reader of these lines can comprehend it just as well as the graduate of a physicians' college. Let not this demand of enfeebled nature be neglected. Respond to it promptly by commencing a course of Hostetter's Stomach Bitters, a preparation uniting, in their highest excellence, the proprietors of a stimulant, an invigorant, and an alterative. Before three days have elapsed, from the taking of the first dose, a marked beneficial change will be manifest in the bodily and mental condition of the patient. The pulse will be stronger and more regular, the eye will begin to lose its dull expression, the muscular and nervous systems to recover their tension, and the spirits to improve. Persevere, and complete revivification of the depressed animal and mental powers is certain. In cases of dyspepsia and billiousness, the same salutary results will be obtained. The appetite will revive, the sallowness of the skin disappear, and all the distressing symptoms which accompany disorders of the stomach and liver, will rapidly subside. The cold of winter often intensifies these complaints by checking the prespiratory action, by which so much morbid matter is evaporated through the pores in milder weather, and therefore the Bitters are especially useful to the dyspeptic and billious at this season. jy3-1m

PLANTATION BITTERS DENOUNCED.—While the community at large entertain and express the highest opinion of Drake's Plantation Bitters, as an invigorating and restorative preparation, there is one class of society that cannot be induced to regard the famous tonic in a favorable light. The fraction of the body politic referred to consists of mean boarding-house keepers. They say that the Bitters interfere with their pecuniary interests. In former days young men generally were in the habit of indulging freely in bar room liquors, and the result of an overdose of any of those adulterated stimuli at night was a nausea and a distaste for food next day. Many a day's rations was thus saved by the proprietors of the caravansaries in question—but now that the great vegetable stomachic has, to a considerable extent, supplanted all the unmedicated stimulants, and almost every young business man keeps a bottle of it by him to give tone and vigor to his system, the boarding-house interest complains that its guests are twice as hearty as they used to be, and that the beefsteaks and buckwheats suffer accordingly. They are, therefore, violently opposed to the use of this agreeable and potent appetizer.

CHOLERA—HOW TO CURE IT.—At the commencement of the diarrhœa, which always preceeds an attack of the cholera, take a teaspoonful of the Pain Killer in sugar and water, (hot if convinent,) and then bathe freely the stomach and bowels with the Pain Killer clear. Should the diarrhœa or cramps continue, repeat the dose every fifteen or twenty minutes till the patient is relelved. In extreme cases, two or more teaspoonfuls may be given at a dose.

The Pain Killer, as an internal remedy, has no equal. In cases of Summer Complaint, Dyspepsia, Dysentery, Asthma, it cures in one night, by taking it internally, and bathing with it freely. Its action is like magic, when externally applied to bad Sores, Burns, Scalds, and Sprains. For Tooth ache, don't fail to try it. In short it is a *Pain Killer.*

The Pain Killer is sold by all dealers in Family Medicines. jy3-1m

Business men, worn by care and sedentary habits, often suffer from constipation of the bowels, until the evil consequences of such a condition are realized in extreme debility, nervousness and prostration of the vital energies of the system; and it may be safely asserted that a majority of the female sex are little better than invalids, from the same cause; but by using Dr. Walker's Vinegar Bitters, this natural aperient and tonic brings back the vigor and bouyancy of health.

An exchange says: "The surprising curative efficacy of Dr. Walker's Vinegar Bitters, in a great variety of chronic diseases, especially those which prove obstinate, and incurable by ordinary treatment, cannot be explained. Nature, aided by art, has here provided a rare combination of medicinal properties, wisely adapted to the cure of diseases common to all mankind."

The effect of Dr. Walker's Vinegar Bitters, even when taken for its cathartic properties, are very different from those of any other medicine prepared specially for that purpose. There is no nausea or disturbance of the stomach, and instead of causing any sense of languor, or debility, it seems rather to invigorate the whole system, and excite the keenest appetite.

ELECTRO SILICON.—This curious and valuable substance is confidently claimed to be the BEST ARTICLE ever discovered for cleaning and polishing Gold, Silver and Plated Ware, and all smooth metallic surfaces, of whatever description, including kitchen utensils of tin, copper, brass, steel, etc.

TO HEADS OF FAMILIES.—Are your little ones subject to croup? If so, don't fail to use NEWELL'S PULMONARY SYRUP. A few doses given in time MAY SAVE THE LIFE OF A DARLING CHILD. Do not fail to have it on hand, if you would be safe and free from anxiety.

Death of Gen. Wolfe.

BY THOMAS PAINE.

In a mouldering cave where the wretched retreat
Britannia sat wasted with care;
She mourned for her Wolfe and exclaimed against fate,
And gave herself up to despair.

The walls of her cell she had sculptured around
With the feats of her favorite son,
And even the dust as it lay on the ground
Was engraved with the works he had done.

The sire of the Gods from his crystalline throne
Beheld the disconsolate dame,
And moved by her tears he sent Mercury down
And these were the tidings that came.

Britannia forbear, not a sigh not a tear,
For thy Wolfe so distinctly loved,
Your tears shall be changed into triumphs of joy
For thy Wolfe is not dead but removed.

The sons of the East, the proud giants of old,
Have crept from their darksome abodes,
And this is the news as in heaven it was told,
They were marching to war with the Gods;

A council was held in the chambers of Jove,
And this was their final decree,
That Wolfe should be called to the armies above
And the charge was entrusted to me.

To the plains of Quebeck with the orders I flew
He begg'd for a moment's delay;
He cried, Oh! forbear, let me victory hear,
And then thy command I'll obey.

With a darksome thick film I encompassed his eyes
And bore him away in an urn,
Lest the fondness he bore for his own native shore
Should induce him again to return.

The black Radical candidate for Lieutenant Governor of Virginia has a white wife all the way from Boston. She went down to the new dominion as a school marm, to teach the ideas of Young Africa how to shoot. She proposes to confine her educational labors hereafter to her own little nigs.

Little Susie, poring over a book in which angels were represented as winged beings, suddenly exclaimed with vehemence: "Mamma, I don't want to be an angel, and I need not, need I?" "Why, Susie," questioned her mother. "Why, leave all my pretty clothes, and wear fedders like a hen!"

To purify butter let the butter be melted and scummed, as for clarifying, then put into it a piece of bread toasted all over. In a minute or two the butter will lose its offensive taste and smell, but the bread will become perfectly fetid. This is the way the French do it.

California last year produced 1,864,000 pounds of wool more than any other State in the Union, her total product of that article for the next year being 14,802,000, while Illinois, the next most wooly State, produced but 12,939,000.

An attorney, about to finish a bill of costs, was requested by his client, a baker, "to make it as light as he could!" "Ah!" replied the attorney, "that's what you may say to your foreman, but it's not the way I make my bread."

Monticello, the residence of Thomas Jefferson, has been sold at public auction. The renegade Democracy have been trying to sell his principles at public auction for a good while.—*N. Y. Day Book.*

When Grant was running for office, we were told that he was "conservative in his feelings and opinions." Then whose "opinions and feelings" does he use to run his ulfia-nigger machine?

It was said of a belle in the habit of wearing low neck dresses, who recently carried off a matrimonial prize, in the shape of a rich old widower, that "she won the race by a neck."

The minister is a Sunday preacher—the editor an everyday preacher. Both have trouble to suit their congregations, and if they are faithful and bold, make plenty of enemies.

Mr. James, the Buffalo bootmaker who sent Grant those "inauguration boots," has not received any office, and has sent in the bill to his member of Congress.

He who receives a good turn should never forget it; he who does one should never remember it.

The wise man is happy in his own approbation; the fool, in the applause of his fellows.

Late World-Renowned

"WEED"

SEWING MACHINE!

First the "New Weed," F. F., or Family Favorite, only completed as late as 1867, and already known throughout the world as the best Sewing Machine yet made. It took, the same year it was completed, the

FIRST PREMIUM

—AT THE—

Paris Exposition, in 1867,

Also at the State Fairs of Pennsylvania, New Hampshire, New York and Illinois.

Also at every Fair since then (without exception) where the Weed Sewing Machine Company have really exhibited its strong points. The demand for it, everywhere, in all countries, is increasing faster than can be supplied.

Price, $65 to $500.

The beautiful $65 style most sold. All families that know the F. F., and are able, are exchanging their old ones to get it!

Second, the heavier "Weed" No. 2, for Boot and Shoe-fitters—price $65. Third, the wonderful New "Weed" No. 3, expressly for Tailors, Saddlers and Harness-makers. Powerful, roomy and Noiseless. No harness-maker or tailor can see this and buy any other. The largest manufacturies in both Europe and America are now very rapidly exchanging for it. Price, largest size, $110. We have other kinds of Sewing Machines, but advise to buy the "Weed" as most certainly the last and best. Address—

G. J. OVERSHINER,

CARRIAGE AND WAGON MANUFACTURER,

Main street, (opposite Gray & Freeman's,)

WOODLAND.

I would call the attention of the public to this well-known shop, where I manufacture to order and keep constantly on hand for sale

Carriages,
Buggies,
Sulkies,
CONCORD-STYLE THOROUGHBRACE

—AND—

LUMBER WAGONS,

—FROM THE—

BEST EASTERN MATERIAL,

Selected by myself!

All work manufactured at my shop is under my own immediate supervision, and up to the requirements of the times, of the latest style, and the most

APPROVED PATTERNS AND FINISH!

I employ no "foreman," for 30 years' experience in the trade—10 years in the Eastern States, 20 years on the Pacific coast, (including 9 years superintendence of the "Pioneer Carriage Shop," Sacramento,) justifies me in assuming that position. Delegating to none the supervision of my work, I am enabled to

Guarantee Satisfaction!

My LARGE and SPACIOUS SHOPS enable me to store large quantities of material, and my

SEASONING FACILITIES,

(the only perfect seasoning apparatus on the coast) enable me to defy competition in quality of seasoned work. For verification of above, one has only to examine my facilities in this line, and compare them with those in other shops. I do not pursue the course adopted by many; on the contrary, I season stock before working, and do not put up green stock in wheels, leaving them to season afterwards. I have and keep on hand a large stock of

OAK and HICKORY SPOKES,

of all sizes and the finest material the market affords. Also a large variety of

Elm and Locust Hubs.

Having given the Oak Hub a fair trial, I have become convinced that they are *unfit* for first-class work. Parties who may favor me with their patronage may be assured that

No green oak hubs will be found in my work!

In this connection I would call particular attention to my NEW STYLE LOCUST HUB, turned from my pattern, and imported expressly for this trade and

Found only at my Shop!

Also made to order all kinds of

FARMING IMPLEMENTS!

Plows,
Harrows, &c

I have now on hand Harrows of all sizes, with STEEL TEETH, superior to the imported article. In short, I am prepared to fill all orders, from a **Wheelbarrow to a Hornet's Nest.**

The PAINTING and TRIMMING DEPARTMENT

is equal to the best, and particular attention is paid to repairing and trimming old work.

BLACKSMITHING,

In all its branches, is connected with the wood-work, and both are under my supervision.

I have on hand, for sale,
Plow-beams and Handles,
Neckyokes,
Singletrees,
Stretchers,
Clevises,
Fifth-chains,
Lap-Rings,
Harrow-Teeth,
Etc., Etc.

All kinds of Plow and Wagon repairing done with neatness and dispatch. Determined to adhere to my long-established rule of manufacturing only the

Best Work from the Best Stock,

and having served my time at the two branches of carriage-work, (wood and iron) enables me to guarantee satisfaction in all cases, and to know, as foreman of my own shop, when work is

WELL DONE.

To those who have heretofore dealt at other shops, and consequently are unacquainted with my work, I would say GIVE ME A CALL and examine my stock and work. Believing that the surest test of the value of my work can be had in the verdict of those who use it, I respectfully refer the public to

The following named Gentlemen

who have and now are using Wagons and Buggies of my manufacture: E. Giddings, J. Langenour, J. Aldrich, Mr. High, H. Rhoades, Mr. Taylor, J. Jones, L. B. Ruggles, Gray & Freeman, J. Garoutte, Fleishman & Kaufman, Ed. Moses, S. & M. Hyman, George Scott, Mr. Ludman, Mr. Olds, Mr. Lusk, Mr. Hurlbut, R. Fritz, J. Lane, Wm. Davidson, and a host of others whose names can be given if required

☞ Thankful for past patronage, I respectfully solicit a continuance of the favor.
